FOREIGN MADE RESEARCH PROJECT

Final Report

To mark the 50th anniversary of John Luker's publication, I have pleasure in producing a 'Foreign Made Research Project', covering not only 537 single labels, but also 1,260 labels in 41 sets/series, all researched and where possible their country of origin determined.

I sincerely hope that these 30 months of solid and substantial research are of benefit and a consequent help to all the phillumenists, who like myself, have been frustrated by the fact that their collections are catalogued under countries and as a result perhaps irritated, that 'Foreign Made' labels lacked a country of origin. I am therefore hoping that this research project will open up a few doors and give all phillumenists a new angle on this small, but nevertheless important element of our hobby. It is therefore my great pleasure to offer the attached lists, which after exactly 50 years, attempts to update John Luker's very important 1972 Foreign Made catalogue.

John Luker's research detailed and listed a total of 478 'Foreign' labels, but only in a very few cases did he list their country of origin. In an attempt to follow up and try to update this significant Foreign Made catalogue, I have in 'lockdown' and beyond, given myself the almost 'impossible' task of trying to track down the countries where these Foreign Made matchbox labels were actually produced.

To help me with this task, I enlisted the help of collectors from around the world and together we have searched catalogues and records in all the relevant countries. Disappointingly, no contacts or records could be found in Italy and Japan, which has been a real set-back.

I wish to thank all phillumenists who have helped me with this massive task, starting with Mr R G Church in 1955, Mr & Mrs M P Batchelor in the early 1970's and Mr J H Luker in 1972, for initiating this important work involving Foreign Made matchbox labels. Since announcing this 'Lockdown' project, I have been greatly assisted by Mr Alan Downer and the Mr Ronald Norris 'FM & sister label' collection, together with Mr Miloslav Jánský who has kindly verified from the Solo Match Factory catalogue, all of the export labels from Czechoslovakia.

Alan Downer's knowledge and advice, administered through numerous zoom meetings, has proved absolutely invaluable, as also has the input from worldwide collectors Flemming Henningsen, Maxim Ilyrntsev, Arno Meijer, Ray Easter, Dr. Andreas Martin, Hans Everink, Alexander Chentsov, Dieter Wendtner, Rustem Uzbekov, Grzegorz Bogdan and Stefan Joset, who have greatly contributed, together with Gary Fossett, Sergey Mazaev, Joel Gabriels, Mike Tree, Gerd Michels, Dorothy Momir Dorotea, Ernst Glanzmann, Aleksey Travnikov, Alan Middleton, Mike Pryor, Halyna Panaxyd, Pekka Lehtonen, Roman Kosinov and Juhani Nyman, to name just a few others who have given me valuable help/advice in this research.

The existence of Foreign Made labels, stems from the fact that in the era from 1920 to 1972 in the UK, all matchboxes had to indicate on their label a country of origin. This took the form of 'Foreign Made', 'Foreign Make' or just plain 'Foreign' sometimes mis-spelt. In total, 537 different Foreign Made single labels in this era have now been identified, listed in alphabetical order and in all but a few cases, at least one country of origin has now been painstakingly traced - List 1.

Extensive research has revealed that some brands existed before the labels were marked Foreign and some had their country of origin added after the Foreign Made requirement lapsed. They are all included, so when other countries have been involved in production, these have been listed in extra columns to show the transition and hopefully present a more complete picture. As brands exist with variations of design, an attempt has been made to identify the earliest design and place that country in the first column. In a few cases in this task, some of the listed labels may fall outside the 52 year period.

It should be noted, that similar to John Luker, the 'Bouldens' Foreign Made sticker/advertising labels, skillets, 'all round the box' labels and certain suspect labels/stickers, have not been included in our lists.

A total of 18 countries have now been identified as producing Foreign Made export labels and I have therefore compiled as a quick reference, the label brands of each of these countries in alphabetical order and listed these in 18 'user friendly' supplements, which should be an additional help for collectors. These labels have firstly been identified and then 'catalogued'/'verified' by phillumenists from around the world, in a very real attempt, to secure as far as possible, a final accurate record.

In addition, we have researched to the best of our ability, the age of all the single labels listed and added dates regarding their production. These dates have been colour coded to show pre-war and post-war labels and after analysing and comparing, this information has then been utilised in selecting an order in the 1st list, with the oldest in the first column, therefore offering an additional guide.

By popular demand from my team of international philumenists, we extended our research and have produced in addition a Foreign Made list for sets/series. A total of 41 sets from 5 countries and 1,260 labels have been identified and country of origin traced - List 2.

Without doubt this back-up research 50 years after Luker's publication, has been greatly assisted by modern advances and new technology, but nevertheless it has proved to be a very difficult task and we have regrettably fallen short in some areas. It will be a disappointment to many, including my research team, that these lists still rely on images from Luker's publication, but the facts are that it was not financially viable to produce an illustrated hard copy catalogue in the current climate.

Lastly, I have added a Foreign Made Summary of statistics and country league tables, in order that an overall view of the two lists can be viewed and assessed. This shows that USSR, Belgium and Czechoslovakia are clearly the three most dominant countries to have produced Foreign Made Labels in the 1920-1972 era.

I am extremely grateful to all the worldwide philumenists who have contributed to this complex assignment. Perfection is not possible, but we have all done our very best to establish the country of origin of Foreign labels in the 1920-72 era. It is perhaps pertinent that this task was prompted by Covid and ceases with a cost of living crisis!

Concluding, we hope that this project will be recorded as a celebration of John Luker's Foreign Made catalogue on its 50th anniversary and therefore trust that this effort to upgrade was worthwhile and useful.

Stay safe and happy collecting.

NOTE

THERE HAS ALWAYS BEEN A LOT OF DEBATE REGARDING THE 'TOURIST' OR 'COLLECTORS' ISSUES THAT WERE DISPENSED IN DUTCH SOUVENIR SHOPS - RESEARCH REVEALS THAT THESE WERE IN FACT PRODUCED BY THE SOLO MATCH WORKS, AUSTRIA. ANOTHER SURPRISE MIGHT BE THAT THE ABOVE LIST REFERS TO BOTH 'FAT' AND 'THIN' HANDS ON THE USSR CLOCK BRAND.
